

15 . Array Minimum no. of operations required to make an array palindrome

class Solution {

public:

```
bool isPalindrome(int x) {  
    int original = x, rev = 0;  
    while (x > 0) {  
        rev = rev * 10 + x % 10;  
        x /= 10;  
    }  
    return rev == original;  
}
```

```
bool isPalinArray(vector<int> &arr) {  
    for (int num : arr) {  
        if (!isPalindrome(num)) {  
            return false;  
        }  
    }  
    return true;  
}  
};
```
